FRESHERS' QUIZ

QUIZZING

- Generally, Quizzing can be called as a form of entertainment in which the general or specific knowledge of the players is tested by a series of questions.
- But today there is no hard and fast rule regarding the definition of Quizzing
- Everyone has a personal take on it.
- We generally work on a quizzing style which makes use of questions termed as ‘Funda’ type.

What do we do?

- We mostly conduct engaging quizzes for college and have some extra fun in organising some internal events for club members as well.
- We take pride in the fact that Quiz Club is one of the most active and functional student clubs in NIT Warangal.
- Our primary goal is to spread awareness about the quizzing culture across the college and engage more and more people with it.

ROUND 1

RULES

1. This round contains 8 questions.
2. Each question carries +10 marks.
3. There are no negative marks, so feel free to take a guess!
4. Part points will be given wherever applicable.
5. This is a quiz purely for fun. Refrain from googling. :)
6. Quiz Master’s decision is final.

SAMPLE QUESTION

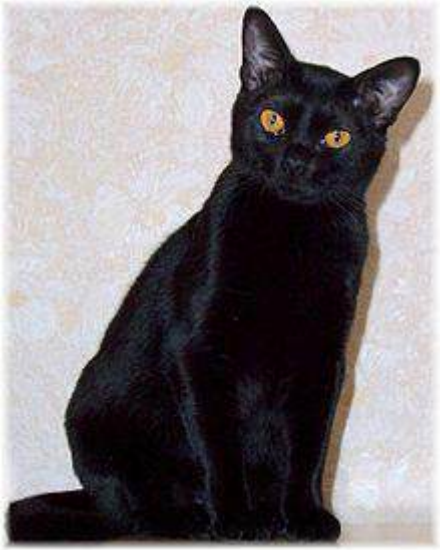

X cat is a domestic cat breed which was developed in the 1950s in America, by crossing Sable Burmese Cats with Black American shorthairs. It bears resemblance to the Indian Black Leopard which inhabits around the Western Ghats and its surrounding areas.

X is also named after a dream-like city in which these leopards are found.

Identify X.

ANSWER

Bombay/ Mumbai

QUESTION-1

Connect the following images.

QUESTION-2

X is a spice obtained from the pods of the flat leaved orchid V. Planifolia. Due to X being the most common and default flavour of a popular food item, X became an adjective which is **plainly** used for several things.

In the world of software, it is used to refer to a software with no modifications. This term is especially used in gaming to distinguish _____(6) games from others. These _____(6) games are only available on the PC platform.

Identify X.

QUESTION-3

In 16th century England, when X was first discovered people thought that it was Y, due to it being black in colour. Most commonly X used in _____ (7, plural) are called Y.
What is interesting about the Y in _____ (7, plural) is, over 66-90% of the Y is wasted, as it is discarded to keep the tip pointy. Only a cone shape is used from the cylinder and the rest is repeatedly shaved off.

Identify X,Y and the blank.

QUESTION-4

Nagavalli, which is also known as X, has a very interesting mythological origin. After victory over demons, when the great Rajsuya yagna was to be performed, the sages asked for X before the veneration. But it was nowhere to be found. Arjuna was asked to get X from Vasuki Naag. The princess cut one of her fingers and asked Arjuna to plant it. Since the creeper sprouted from a human finger, it didn't bear fruits or flowers.

(Continued on next slide)

CONTINUATION...

Due to this, X is considered auspicious and is part of many rituals and customs, it became a tradition to ___ (4) X when the bride and groom's parents talk about their wedding plans for the first time to impart good luck.

Identify X.

QUESTION-5

X was believed to be produced only where sunlight was found on Earth. But recently, scientists discovered that X was found to be produced in high amounts in the deep oceans of the planet. This was possible due to the fact that production of X could also be possible by the process of chemosynthesis. This X produced in seabed is known as Y X, due to it being produced in the absence of sunlight.

Identify X and Y.

QUESTION-6

In the Pokemon franchise, Koffing and Weezing were originally given the names “Ny” and “La” respectively, but they were changed before the Pokémon were introduced to the Western audience so that their names would resonate universally without potential misunderstandings.

The new names, “Koffing” and “Weezing,” were selected to emphasize the Poison-Typed Pokémon's toxic and gaseous nature.

What is the reason for the name change?

QUESTION-7

Originally started off as a paper production company in Finland, the name X comes from the _____ river flowing in the region of Pirkanmaa, which flowed aside the single paper mill of the company. X later went on to produce tyres, rubber boots and television before focusing on telecommunication.

(Continued on next slide)

CONTINUATION...

The river was named after the small furry animal pine marten, which is now extinct. The company faced a similar extinction crisis, but X products are famed for resisting damage and longevity and the company is set on making a comeback.

Identify X.

QUESTION-8

Rosco Paints, founded in 1910 is best known for products such as colour filters, scenic paints, and fog products.

In the early 2020s, the company's worldwide supply of X was exhausted. There were many reasons behind this such as the COVID-19 lockdown, and the damage of raw materials that are used to make X, but the most profound cause of this depletion was the extensive usage of X by one of Rosco's clients.

(Continued on next slide)

CONTINUATION...

The client chose X because it provide a kid-ish feel that matches their project's aesthetic, and it is almost synonymous with their project.

Identify X, and what Rosco’s client wanted it for.

ROUND 2

RULES

1. This round contains 7 questions numbered from 9 to 15.
2. The scoring for each question is +10 for a right answer/0 for wrong answer.
   But there is a slight twist this time!!!!
1. Each time you answer 2 consecutive questions right, you will have a STREAK.
2. If you are on a streak, you will get +15 for every right answer, but 1 wrong answer will break your streak.
3. Quiz Master’s decision is final

QUESTION-9

Vincent Van Gogh's self-portraits vary stylistically. The strong contrast of vivid colors highlight the haggard pallor of his skin. Some depict the artist with a beard, others without it. He can be seen with bandages in portraits executed just after **he mutilated his ear**. In only a few does he depict himself as a painter. One of his portraits has come into light in recent times due to an event. Where the photo has been photoshopped with a popular personality.

What was the event?

QUESTION-10

Lockheed Martin's Advanced Development Program is commonly known by its pseudonym "X works" (X being named after an animal). When Lockheed was rapidly expanding, they set up operations near a bourbon distillery, where the sour **stench** of the chemicals released by the distillery was overwhelming. An employee humorously referred to the location by its name and that stuck. This division later became famous for producing iconic aircrafts such as the SR-71 Blackbird, F-117 Nighthawk, and the Polecat.

Identify X.

QUESTION-11

This historical structure served as a place of worship for different religions at different points of time. Often regarded as a monument to democracy, it appeared in various hollywood films, including one where it was used to call a superhero for help.

The place was used to store ammunition in the 1600's but this ultimately backfired and led to its ruin, destroying several of its pillars and roof which gives it the iconic look we know today.

Name the structure and the superhero referred to in the question.

QUESTION-12

The Fou is an ancient Chinese percussion instrument made of a pottery or bronze ware or similar vessel, which is struck with a stick. It came into the limelight in the late 2000s, when a large number of percussionists staged a synchronized presentation, striking Fou with glowing red sticks for a major event X. The instruments had LEDs attached to each drum, allowing them to produce both music and a dazzling display.

Identify X.

QUESTION-13

In the movie “Deadpool”, the titular character interrogates some criminals, where he says “This is confusing. Is it _____(6) to hit you? Is it more _____(6) to not hit you?”

This pokes fun at a trope, where certain anti-heroes have this particular moral code to **prevent collateral damage**.

Identify the trope and blank.

QUESTION-14

_____(10,5) is an abnormal condition which causes a certain part of the body Y (5; also the second part of the answer) to bend backward beyond the normal scope of human motion.

The condition quite aptly gets its name, because it bears a very close resemblance to a certain action performed using Y by helpless people, who want to move from one place to another.

Identify the blank- X Y.

QUESTION-15

During the Medieval period, gold and silver coins were utilized for both everyday transactions and international trade. Silver coins were commonly used in the Indian Subcontinent at the time. During the fourteenth century, the world experienced an acute shortage of silver. During this period, the Delhi Sultanate implemented significant reforms in coin minting.

(Continued on next slide)

CONTINUATION...

Though the idea initially boosted the economy by lowering minting costs, a significant increase in money circulation was noted in the Rohilkhand region, which was well-known for its brassware manufacturing. Initially assumed to be the consequence of a flourishing economy, it was eventually discovered to be a hoax, resulting in massive economic losses for the empire.

What was the reform, and why did the Empire suffer losses?

ANSWERS

ANSWER

X- 2008 Beijing Summer Olympics Summary

QUESTION-13

In the movie “Deadpool”, the titular character interrogates some criminals, where he says “This is confusing. Is it _____(6) to hit you? Is it more _____(6) to not hit you?”

This pokes fun at a trope, where certain anti-heroes have this particular moral code to **prevent collateral damage**.

Identify the trope and blank.

ANSWER

Blank - sexist, Trope - No women/ children should be harmed

QUESTION-14

_____(10,5) is an abnormal condition which causes a certain part of the body Y (5; also the second part of the answer) to bend backward beyond the normal scope of human motion.

The condition quite aptly gets its name, because it bears a very close resemblance to a certain action performed using Y by helpless people, who want to move from one place to another.

Identify the blank- X Y.

ANSWER

Y - Thumb

Blank - Hitchhiker’s Thumb

QUESTION-15

During the Medieval period, gold and silver coins were utilized for both everyday transactions and international trade. Silver coins were commonly used in the Indian Subcontinent at the time. During the fourteenth century, the world experienced an acute shortage of silver. During this period, the Delhi Sultanate implemented significant reforms in coin minting.

(Continued on next slide)

CONTINUATION...

Though the idea initially boosted the economy by lowering minting costs, a significant increase in money circulation was noted in the Rohilkhand region, which was well-known for its brassware manufacturing. Initially assumed to be the consequence of a flourishing economy, it was eventually discovered to be a hoax, resulting in massive economic losses for the empire.

What was the reform, and why did the Empire suffer losses?

ANSWER

The reform was the usage of copper coins which replaced silver coins.

Losses occurred because people started forging the coins at their homes.

FINALS

TRICK OR TREAT

Rules

1. This round contains 6 questions.
2. Each team can answer the question during the first 1 minute.
3. Correct answer carries +10 marks, and wrong answer -5.
4. The teams which haven't answered the question can nominate another team and ask for help.
5. The nominated team can either trick the other team by telling them the wrong answer or they can choose to be nice and tell them the right answer.
6. The team which has asked for help has the chance to either call it a bluff or go ahead with the answer given by the other team.

Rules

7. If the team chose not to trick, both teams get +5.
8. If the team tries to trick, and gets caught, The team that tried to trick gets a -5, and the team that called the trick gets +5.
9. If the team manages to trick the other team into giving the wrong answer, the team that got tricked gets a -5, and the team that tricked gets +10 marks.

Sample Question

X is a popular children's book written by Judi Barrett and illustrated by Ron Barrett. The story, originally published in 1978, is set in the fictional town of Chewandswallow, where the weather provides all the _____(4) the residents needs. However, the weather starts to go awry when increasingly oversized and bizarre _____(4)s begin falling, causing chaos in the town.

The book was later delightfully adapted into a successful animated movie in 2009, using the main concept of the book.

ID the movie X.

Answer

Cloudy with a chance of meatballs

Question 1

In the history of unexpected twists, there exists a tale that’s equal parts irony and misfortune. A famous invention X, dated back to the early 1800s, has been helping humankind battle major life threatening events since its creation and is strategically placed in different parts of cities for swift action. Unfortunately, the identity of the inventor of X was wiped out by the exact same cause it was intended to fight against, leaving no trace of record behind.
