8 PM IST

Rules

- Twenty Questions, One Point each
- Teams of one or two people only
- You can discuss with your teammate over private chat; Do NOT shout out answers
- Fill out the Google Form to submit answers
- No Googling etc. We're all here for the quiz
- Ask and you shall receive hints (by raising your hand)

Question 0

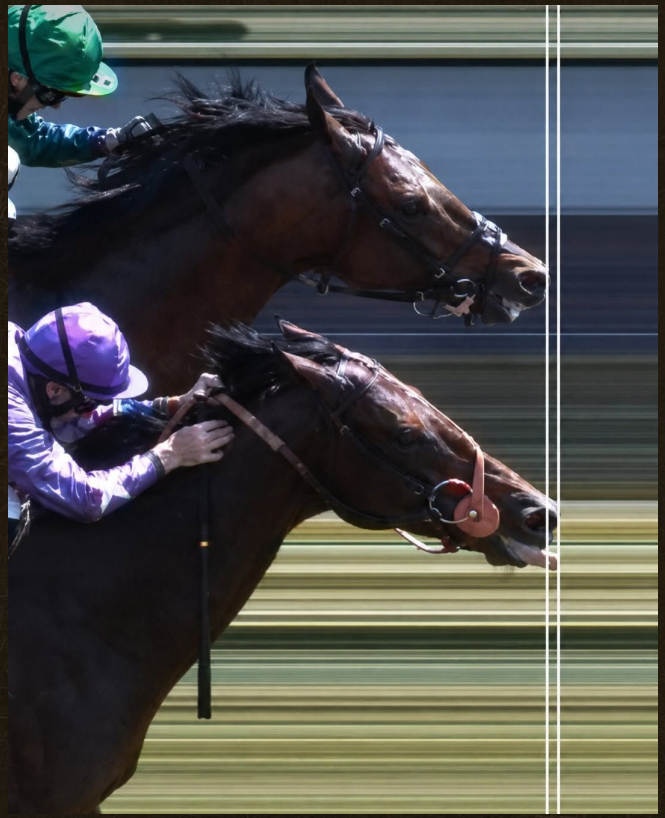

During the 2021 Diomed Stakes, the racehorse “Oh This Is Us” won a razor thin victory. While official rules measure the horse’s nose to determine the winner, the high-speed photo-finish camera captured the horse sticking its tongue fully out across the stripe.

The viral snapshot had perfectly mirrored the signature tie-breaker move used by a fictional rookie racer during the opening event of an automotive championship in a hit animated movie.

Identify the movie.

Question 0

Answer 0

Cars

Let's Begin

Question 1

To protect its multi-billion-dollar official sponsors, FIFA World Cup imposed an uncompromising ”clean stadium” rule upon its host venues. Brands that aren’t official FIFA partners had to completely cover their massive logos, and the venues were forced to change their names to generic geographic titles.

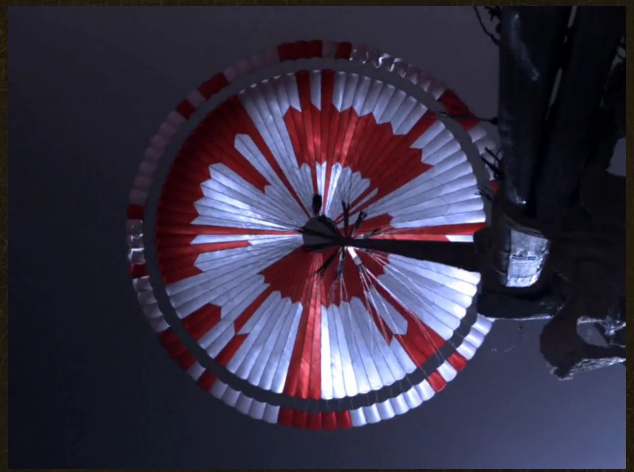

While brands like Levi’s had to use tarps to cover their logo, X executed a masterclass in marketing, weaponizing the censorship by obscuring its logo beneath its own signature foamy product.

ID the brand X.

Question 2

When Nasa's Perseverance rover landed on Mars in February of 2021, people had noticed that it's parachute had a pattern made of 2 distinct colours arranged in a unusual pattern. After decoding the pattern, it had a message: "Dare mighty things", the motto of NASA's Jet Propulsion Laboratory.

How was this hidden message encoded in the parachutes pattern?

Question 3

King crimson is a band known for their phonetically complex songs and time signatures. One song _____(8) from their discography stands out as one of the hardest songs to play in the guitar ever. This song was later remixed in their album ”The ConstruKction of light” to be even harder and remixed song’s name X(10) is in past tense. The new song also follows the naming structure of replacing the ’c’ in the name with a ”Kc”(king crimson).
Fans have jokingly suggested that the song is named X (10) because how straining the strumming is on the fingers and the state of the fingers after playing it.

Identify X.

Question 4

RFK Junior, the current health secretary of America, is widely criticized for suggesting ideas that are opposite to common sense, like vaccines causing diseases and red meat being the cure for all illnesses. RFK Junior in the 1990s used to work as an attorney for Riverkeeper, an organization focused on cleaning of polluted Lands and Rivers. During one of his business trips, while sitting in a ski resort's hotel lobby, he saw a X which was merchandised with the name of the resort. RFK was excited to implement this at Riverkeeper without thinking that selling Xs was antithetical to the mission statement of the organization.

ID X.

Question 5

Super Meat Boy is foundational video game in the 2D platformer genre, having a unique art style with the main character quite literally being a meat block with legs.
X is a very infamous online animal rights and vegan group who misunderstood the themes of the game to be about animal cruelty and released a parody browser game called Super Y Boy. The developers saw the humour in this and added Y Boy as a new character and made him have worse stats in the game as a nod to the nature of Y compared to meat.

Id X and Y.

Question 6

The X project owes its name to a blend of personal inspiration and playful team dynamics. It originated as a twist to the name Naina, a dedicated employee who played a key role in driving the project forward. Recognizing how easily her name rhymed with a fruit, the team embraced the catchy association.

What began as an internal joke gained momentum giving the Technology, the name X.

ID X.

Question 7

X began as a simple, playful idea in the mind of a young Madhan Karky. As a teenager trying to invent a secret, effortless way to communicate. Built on a foundation of around 100 words, it used intuitive tricks like reversing words for opposites and incorporated clicking sounds for fun.
Years later, Y approached Karky to design a terrifying language for some blood thirsty moments in his movie. Karky revived and expanded his childhood game into a complete constructed language.

How do we know this language, X?

Question 8

The word X, owes its origin to the strategic ordering of soldiers or ships into tactical battle formations. It is a combination of two Greek Morphemes meaning synthesis and arrangement.
The tables have turned and X is now a staple of daily tech jargon, even if most people using it are unaware of its ancient roots.

ID X.

Question 9

In Pokémon's 30th anniversary Super Bowl commercial, artist X, known for her eccentric fashion choices, revealed Jigglypuff as her favourite Pokémon. She explained the choice by referencing Jigglypuff's "12-octave vocal range", drawing a clear musical parallel to her own abilities. In addition to this appearance, artist X made a surprise guest performance during Bad Bunny's Super Bowl halftime performance.

Id the artist.

Question 10

In late August 2026, a 150 year old skincare giant shocked the internet by changing its official social media handles and profile pictures to a completely new name. This happened after a South Korean beauty creator's skincare video exploded in popularity. Because her native language lacks the phonetic sound needed for the brand's original name, she substituted a different consonant.

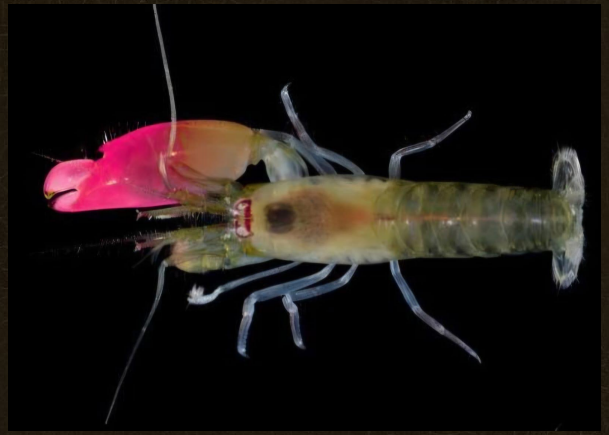

The slip-up went hyper-viral and thousands of people creating memes mimicking her. The company updated its global branding and humorously appointed the creator as its new "CEO."

Id the company.

Question 11

Capable of generating a sonic blast so loud it can stun its prey, a newly discovered species of snapping shrimp uses a highly specialized, asymmetrical claw to create a deadly acoustic bubble. Because of the colour of this massive, sound producing claw, the scientists who discovered it named the crustacean in honor of X, a legendary English rock band famous for their psychedelic sound.

ID X.

Question 12

Vaudeville and minstrel shows in the late 19th and early 20th centuries were a popular form of variety entertainment. A notable visual element in many minstrel performances involved white performers wearing blackface makeup along with exaggerated white lipstick and white gloves to make facial expressions and hand movements more visible to audiences. A similar visual trick later appeared in early animation, where creators discovered that X was particularly tedious to depict whenever characters moved, leading them to adopt this visual shortcut.

Identify X.

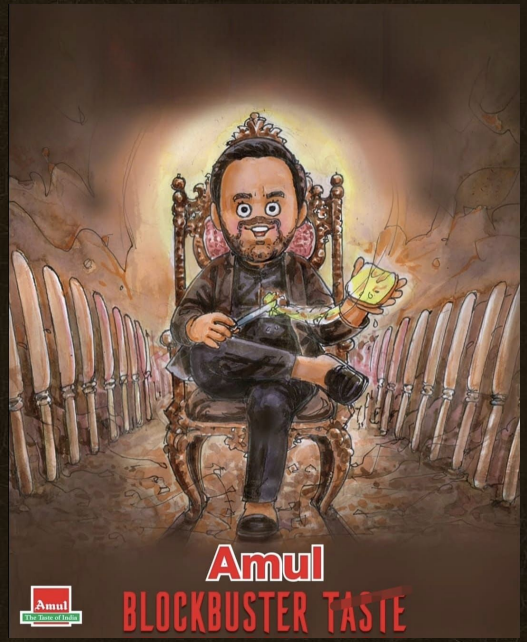

Question 13

František Bartoš, a PhD candidate at the University of Amsterdam performed a very basic yet intriguing question for her research. During the course of this research she and her team performed an experiment a whooping 350,757 times. This number not only broke the previous world record for the number of times this same experiment was performed but also rewrote the very basics of our maths textbook as she disproved a long standing belief. The result even won her the IgNobel Prize.

What did she disprove?

Question 14

Amul, known for its witty and timely topical ads, recently released an illustration celebrating the movie adaptation of a hit Indian web series, X. Identify the film X and the specific pun used in the ad.

Question 15

“Everywhere at the end of time” is a album released by the artist “The Caretaker” in 2016. It consists of 50 tracks across 6 hours of music. The constant theme of the album is degradation with familiar music being intermixed with static to create confusion as we get into the ending hours of the album. Many of the sounds used in the album was sampled in a retirement home.

This album was created as awareness for a specific degenerative disease that affects large amount of people.

Id the disease.

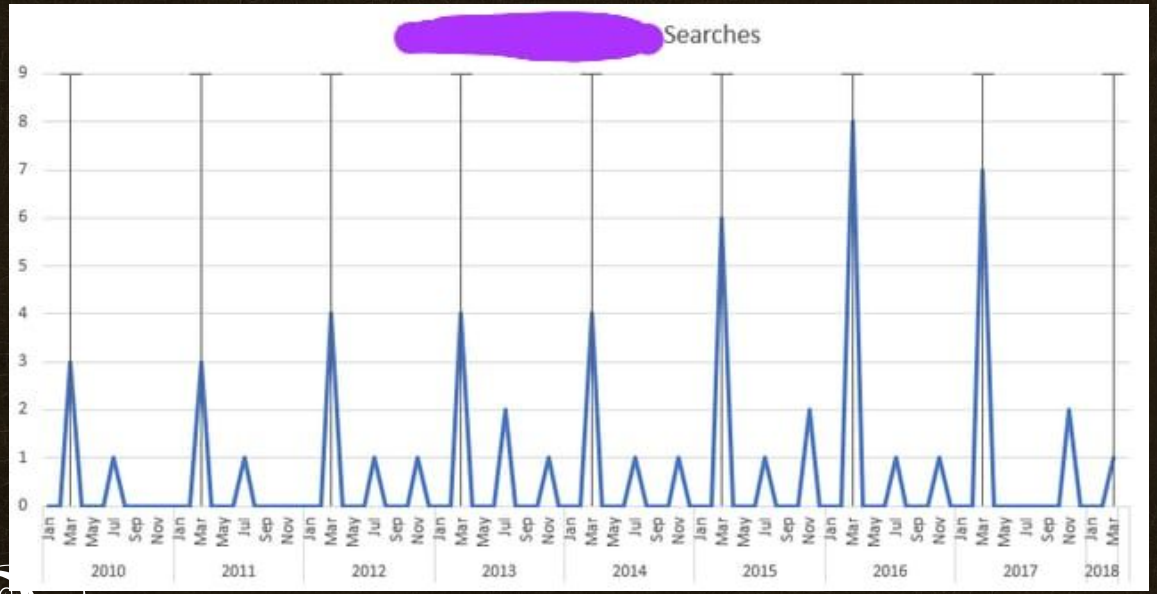

Question 16

X, one of the main characters from One Piece, was originally supposed to be called Y due to one of his facial features being inspired by the Ramen topping. However, Oda, the author of One Piece, decided to change his name because a new manga with a main character named after Y was about to be released. Since the new manga was being created by one of his close friends, Oda didn't want to overshadow him, as One Piece was already established while the new manga was still up and coming.

ID Y.

Question 17

The graph shows the frequency of online searches for X over several years. Identify X, noting that the most prominent spike consistently occurs on a particular date each year, an occurrence that adds an ironic twist to the trend.

Question 18

In UAE's ILT20 (T20 format cricket) league takes things to a different level by giving X to players for their individual performances. This award which is not much popular in contemporary sports has its inspiration from a combat sport involving a lot of drama.

ID X.

Question 19

One of most absurd heists in history happened in the global strategic X reserve facility in Quebec. The plan that was carried out by the thieves were to transport X, which was stored in barrels, by siphoning it out and covering their trails by diluting the barrels with water. In the end over 18.7 million dollars worth of X was stolen before being caught.

The truth was finally revealed when an inspector tripped over a barrel which was accidently left empty by the thieves. After the court procedures, a dark comedy series was made about the heist called ”Sticky”.

ID X.

Question 20

As part of its 2005 promotional campaign for “Supernatural,” The WB, aiming to reach its intended audience of young horror fans, installed motion-activated X in bar ___. When someone approached within two feet, X lit up and displayed an image of a woman bursting into flames while pinned to the ceiling. The campaign saw these X installed in about 200 nightclubs, placing the show’s promotion in unexpected locations where people were likely to discuss it. Coincidentally, X is also famously associated with an urban legend Y, which was later explored in an episode of the series.

ID X and Y.
