Though not authenticated by Rowling, there's a theory behind the unique characteristics of the Zs. Fans believe that the author was inspired by Ginger cats.
Ginger cats are said to possess a particular gene in their X chromosome which is the cause of their distinct orange colour fur.
Since females require two copies of this gene whereas males require one, there are more chances of male offsprings being born than females with this colour.

ID Z and the associated features.

ANSWER

X - The Weasleys
Features - Red hair and Ginny being the only daughter of Arthur and Molly Weasley

QUESTION-2

X is a powerful magical artefact, typically crafted from metal or stone. It is rarely used, as most wizards fear the immense danger it presents, having the ability to reveal even their most hidden secrets. X's name is also a homonym of an English word that means thoughtful. It is also a clever pun, with the second part of the name referring to a Muggle kitchen tool that, much like X, is used to sift through or organize a mass.

Identify X.

QUESTION-3

This video clip is the climax scene from the movie Frozen. This clearly inscribes a reference from the Harry Potter series wonderfully along similar lines of story.

What is the scene referenced in this climax scene?

(Clip in next slide)

Test 2 (Exceeds Expectations)

QUESTION-4

JKR has described this book as the most difficult to write at that time, particularly due to multiple plot holes. Originally titled "Harry Potter and the Doomspell _____," Rowling planned to introduce Mafalda, the daughter of a stockbroker cousin who was rude to the Weasleys. She was supposed to fill the irksome role of X in the subplot, but Rowling decided against it because "there were obvious limitations to what an eleven-year-old closeted at school could discover."

ID the book and X.

QUESTION-5

The Death Eater, Antonin Dolohov is named after Dolokhov, a character in Leo Tolstoy's War & Peace. This Dolokhov was a cold-hearted army officer who is challenged to a duel by Pierre, which he loses, is injured, and thus spends time incapacitated.

This reference is made in Harry Potter with Antonin Dolohov having a record for being _____ (9) whenever the Death Eaters meet with the protagonists. Specifically, Dolohov, of all the death eaters, holds the record for a count of multiple times.

ID what record Dolohov holds.

QUESTION-6

X, who went largely unnoticed during her lifetime, became infamous after death, especially among students. X was known to be concealed only in one place so people generally avoid it, making her both a curiosity and a nuisance. Interestingly, X's death enabled Y to create something groundbreaking and first of its kind, which later helped him to pursue his goals and was later used by Y to complete his incomplete tasks. Over time, X played a crucial role in helping others to know about this as well, often unknowingly.

Identify X and how did her death enable Y to finish his goals?

Test 3
(Outstanding)

QUESTION-7

The rise of Voldemort and the Death Eaters bears similarities to the rise of totalitarian regimes from some historical incidents, such as Y under X. Voldemort used fear, manipulation, and the desire for power to control certain people, just as X used to establish dominance. The resistance against Voldemort, led by Harry and others, mirrors the movements that arose during a historical battle of the last century, where ordinary individuals stood up against tyrannical forces, risking their lives for the greater good.

Identify X and Y.

QUESTION-8

While fans have pointed out this connection, JKR has always said that it was unintended. X belongs to an aristocratic and practically royal wizarding family. However, their name sets them apart from the rest of the family. They share this characteristic with a main character, whose purpose in the storyline was the exact same thing.

Identify the coincidence.

QUESTION-9

This iconic scene was one of the most difficult to shoot and edit, initially causing confusion due to its complexity. It required multiple attributes to merge seamlessly into a single scene, making it a challenging task for the actors. The solution involved an advanced VFX technique using UV paint and a specialized capture system with 29 cameras to record 50,000 data points, creating a 3D mesh for realistic transformations. The end result was a groundbreaking moment showing seamless character interplay.

QUESTION-1

"It was a mistake any wizard could make / Who was tired and caught on the hop / One piffling error, and then, to my terror, / I found myself facing the chop."

is what a ballad had to say when relaying an event involving X. During this event, X was a “gibbering wreck,” and a grindstone crucial to the event had been misplaced. This and X’s fear of death led him to live in this state.

ID X.

QUESTION-2

The X are celebrated _ (10) globally and have a heritage linked to ancient Romans. Their name, meaning "he who owns the _ (5) wand," suggests an early association with _ (5) trees, possibly outside of England. Y, a member of the family X, is a very famous Ravenclaw and well-known in the wizarding world. His knowledge was so vast that he was called to preside over a ceremony of the Triwizard Tournament.

ID Y.

QUESTION-3

The wand of Salazar Slytherin, one of the founders of Hogwarts, contained a fragment of a magical snake's horn, a Basilisk. The wand had been taught by its creator to ‘sleep’ when so instructed, and this secret had been handed down through centuries to each member of Slytherin's family who possessed it. This feature of the wand could not be used by ordinary wizards even if they had the knowledge of it.

Why is it so?

QUESTION-4

The X is a large, magical avian beast native to North America. It is most commonly found in Arizona, in the southwestern United States. They could create rainstorms in their wake as they flew. Notably, if given a potion vial, then X could infuse the potion into the storm, lacing the rain with it. This allowed for the potion to cover a vast area, affecting everyone under the storm. This ability of the beast was used in 1926 by Y, a famed magizoologist during his visit to America to obliviate the population and cover up the major potential Statute of Secrecy breach.

ID X and Y.

QUESTION-5

During the filming of Prisoner of Azkaban, director Alfonso Cuarón, to acquaint himself with his lead actors (Daniel Radcliffe, Rupert Grint) and actress (Emma Watson), had each of them write an essay about their characters from a first-person point of view.

Each of them proceeded to complete the task in the same fashion their characters would have done it.

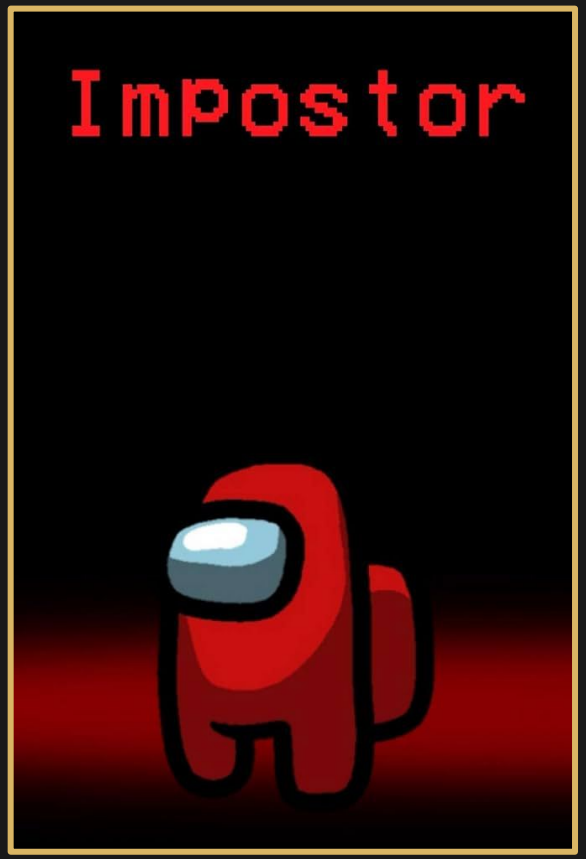

How did the actors complete the given task?

QUESTION-6

J. K. Rowling has stated that she does not believe in magic, and does not intend that her readers should believe in it either. In Greek mythology, Cassandra, a Trojan priestess, received a gift from Apollo, but when she spurned his romantic advances, the god, in his wrath, cursed her that she would be ever correct, but she never believed. Similarly, a character X in the HP universe has the same gift, and this inspiration suggests that perhaps some of X's pronouncements may be more accurate than is often believed.
